
Single Head Copy Routing Machine LXF-290x90
Double Head Copy Routing Machine LXF2-300x100

➤ **Function:**

For all kinds of hole and groove milling.

➤ **Features:**

Belt for speed increase, high speed milling, good milling quality.

Template changable for different hole and grooves.

A vertical direction of the milling head can processing the holes and grooves on the level.

➤ **Parameter:**

Air Pressure:	0.5MPa~0.8MPa
Air Consumption:	3L/min
Input Voltage:	380V 50Hz
Input Power:	0.75KW
Main-shaft Revolution:	11200r/min
Copy Range:	90mmx290mm
Cutter Diameter:	5mm 8mm
Overall Dimension:	870mmx700mmx1500mm
Weight:	220kg
