**Automatic Heavy-duty Corner Connector Cutting saw LJJJ-CNC-500**

**LJJJ-500**

**LJJJ-450**

**Features :**

- 1.It has feature of easy operation, reliable performance, advanced technique and convenient maintenance etc.
- 2.Used for comer connector of aluminum profile cutting and for plastic profile cutting.
- 3.Imported carbide saw blade give accurate processing and high endurance.
- 4.Linear bearing motion pair gave less resistance force and ensured high processing accuracy.
- 5.Auto profile feeding device is available.
- 6.Suitable for large volume production.
- 7.Clamping and feeding process adopt pneumatic control .It has features of high automation , reliability and production efficiency .

**Parameter:**

Power supply :	380v 50Hz
Motor power :	3kw
Motor rotational speed :	2840r/min
Operation air pressure:	0.6~0.8MPa
Air consumption:	200L/min
Auto feeding length :	5~600mm
