### End Milling Machine LXD-80

➤ **Function:**

For mullion end surface milling, suitable for screwing connection type mullion .

➤ **Features:**

Manual feeding.

Changeable cutters for various profiles processing.

➤ **Parameter:**

Air Pressure:	0.5MPa~0.8MPa
Air Consumption:	10L/min
Input Voltage:	380V 50Hz
Input Power:	0.75KW
Main-shaft Revolution:	2800r/min
Max.Milling Height:	90mm
Overall Dimension:	700mmx580mmx1540mm
Weight:	105kg
