
End Milling Machine LXDW-200

➤ **Function:**

For mullion end surface milling with different sections, suitable for screwing connection type mullion.

➤ **Features:**

Pneumatic feeding.

Changeable cutters for various profiles processing.

➤ **Parameter:**

Air Pressure:	0.5MPa~0.8MPa
Air Consumption:	10L/min
Input Voltage:	380V 50Hz
Input Power:	1.5KW
Main-shaft Revolution:	2800r/min
Locating Board Rotate Angle:	-55°~+55°
Max. Processing Dimension:	200mmx45mmx90mm
Cutter Spindle Travel Range:	36mm
Overall Dimension:	1060mmx800mmx1300mm
Weight:	240kg
