## Glazing Bead Saw SJBW-1800

➤ **Function:**

For 45° glazing bead cutting.

➤ **Features:**

Special measurement scale, easy to operate.

One time two pieces of glass batten cutting.

Design with adjustable mould, change the profile but not change the mould, avoid reinvestment and reduce the production preparation period.

Adjustable positioning plate design with fine tuning device so that made the interior corner sealed after assembling the bead.

➤ **Parameter:**

Air Pressure:	0.5MPa~0.8MPa
Air Consumption:	20L/min
Input Voltage:	380V 50Hz
Input Power:	1.1KW
Spindle Rotary Speed:	2800r/min
Cutting Height:	33mm
Cutting Width:	100mm
Cutting Length:	320mm~1800mm
Overall Dimension:	2500mmx1380mmx1300mm
Weight:	250kg
