

Lock Hole Milling Machine SZSB-100

➤ **Function:**

Milling all kinds of lock holes.

➤ **Features:**

Formed by three-hole drill part (horizontal direction) and copy milling part (vertical direction).

The height of three-hole drilling can be adjusted easily.

Three-hole drill designed behind and operated easily.

Adopt vertical axis to ensure the parallel precision of the three-hole drill.

Easy adjustment of the processing position.

➤ **Parameter:**

Air Pressure:	0.5MPa~0.8MPa
Air Consumption:	20L/min
Input Voltage:	380V 50Hz
Input Power:	1.1KW, 0.75KW
Three-hole Cutter Diameter:	12mm 10mm
Copy Cutter Diameter:	5mm 8mm
Copy Milling Range:	290mmx90mm (lengthxwidth)
Overall Dimension:	3150mmx1020mmx1600mm
Weight:	400kg
