
Single Head V Welding Machine SHVA-120

➤ **Function:**

Used for Γ 、 \perp PVC profile welding and any other angles welding.

➤ **Features:**

Specially suit to arc window, special angle and unusual type of window welding.

Adopt PLC to control the welding operation and program, high reliable.

Reasonable structure, very stable.

Easy operation and convenient for moving.

➤ **Parameter:**

Air Pressure:	0.5MPa~0.8MPa
Air Consumption:	20L/min
Input Voltage:	220V 50Hz
Input Power:	1KW
Welding Height:	20mm~120mm
Welding Width:	<120mm
Overall Dimension:	500mmx800mmx1600mm
Weight:	300kg
